

# **LE CABINET DE CURIOSITÉS**

DE NATACHA

**A retreat designed by an artist for artists**

Located among the vines on the heights of Aigle, in the canton of Vaud, Switzerland,  
Natacha's Cabinet of Curiosities offers the ideal setting for you to  
disconnect and concentrate on your creative project  
be it a novel, an essay, a thesis, a painting, a composition, etc.

\*Depending on your activity, it is necessary to bring your own equipment and respect silence from 10 p.m. to 7 a.m.

# The house and the view

Natacha's Cabinet of curiosities has taken up residence in a winegrower's house in Fontanney, the first traces of which date back to 1860.

From every window in the house, as well as from the balcony or the garden, you can enjoy a breathtaking view of the legendary mountain range in Valais: Les Dents du Midi.

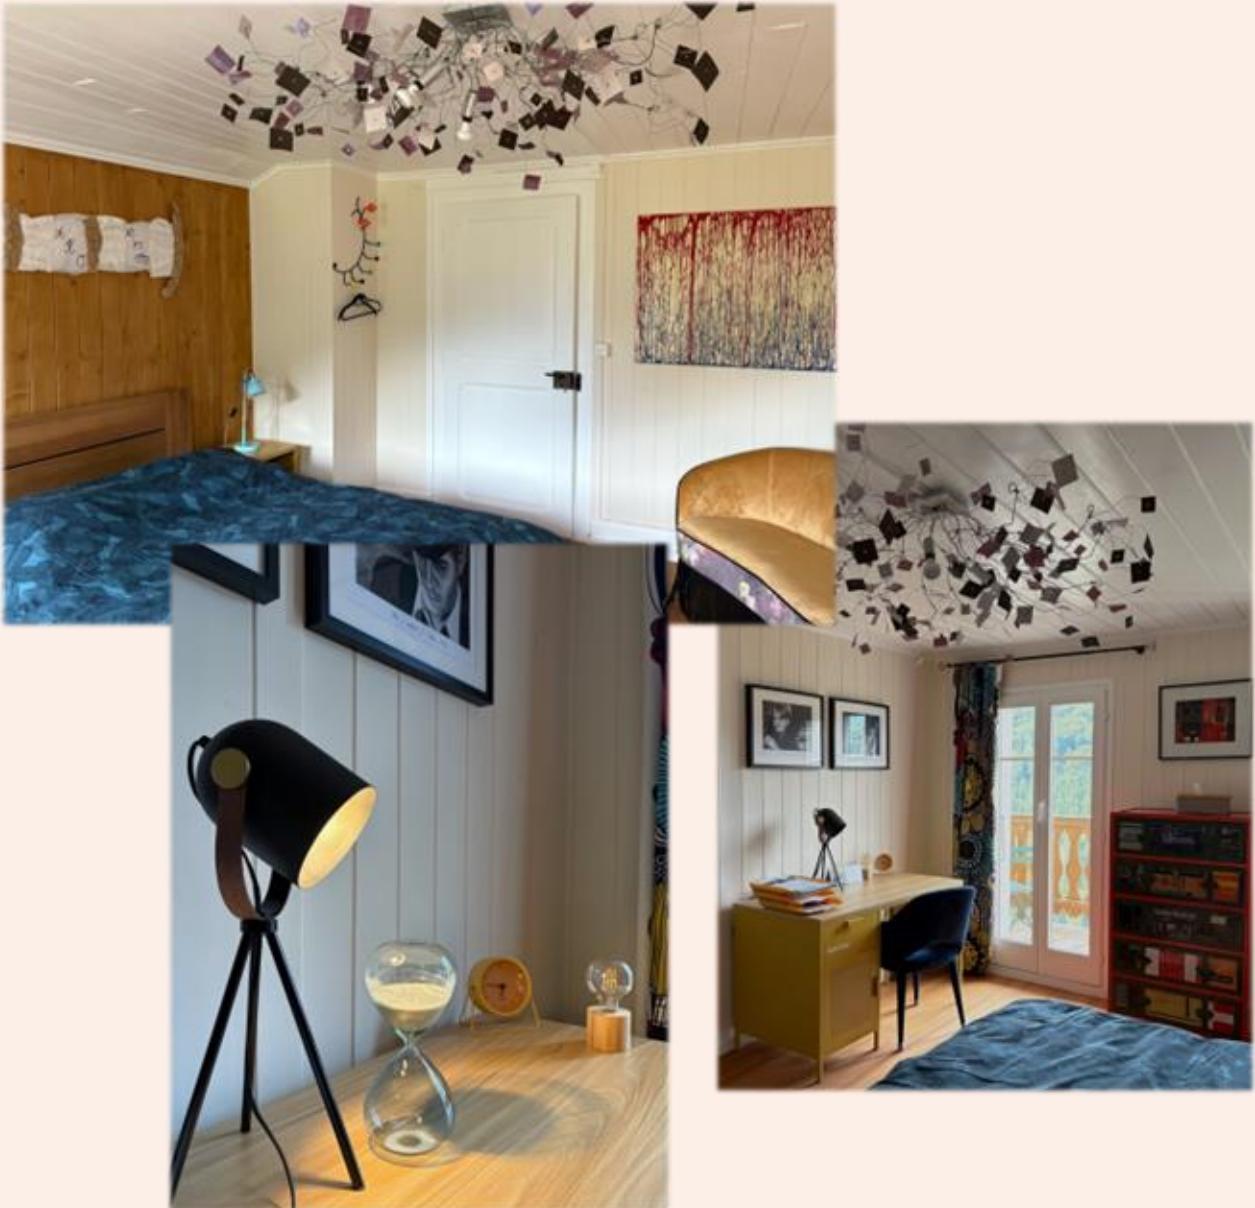

It's a beautiful sight, different every day. From the house, you can also see the Rhône plain and the majestic castle of Aigle.

# The bedroom

Welcoming and bright, the room  
has a double bed (160 cm),  
a desk, a sofa and a chest of drawers.  
It is designed to welcome one person at a time.  
The inspiring décor features  
works of artists who are friends of Natacha's,  
and some of her own.

# The shower room

The shower room was created especially for you!  
Its use is reserved for you.

Carefully furnished, the room allows you to wake up to a gentle start to your day or relax after your creative experience.

The yellow entrance brings joy and light to your stay.

# The kitchen

More sunshine here!

Completely renovated, the style of the kitchen already makes you want to spend some time here.

Prior to your stay, your hostess will send you a list of caterers/restaurants.

Consult the list and choose the prepared dishes you would like to purchase from their menu.

They will be collected upon your arrival.

The kitchen is also used by Natacha to cook but not to have her meals.

# The garden and its terraces

Summer and winter alike, the garden, with its terraces, is open to visitors.

Perfect for a break or a siesta, you'll never tire of the view nor the tranquillity.

In summer, you'll be irresistibly drawn to the cushions of the Mahjong lounge.

If you feel like it, you can use the table outside to work or enjoy a meal.

In season, figs, medlars and grapes can be enjoyed straight after picking.
